Sarah went to Meriweather's Restaurant with her mother and father for dinner. As soon as they sat down at their table, the server brought them a menu and introduced himself. Sarah ordered popcorn shrimp, a baked potato, and steamed vegetables. Her mother and father both ordered steaks. Their dinner cost \$43.21. Sarah's father added \$7.50 to the cost of the meal as a tip for their server. How much did the dinner cost in all?

Jack is building a cage for his pet skink. He paid \$4 for the boards. He paid \$0.75 for the nails. He paid \$2.20 for the screen. He paid \$1.28 for the hinges. He bought a bag of sand for \$2. The light to keep the skink warm cost \$3. How much did Jack spend in all?

Name the place value that is 10 times greater than the ten thousands place.

 $12 \div 3 =$

In the parking lot there are 13 vehicles. There are 2 SUVs. What fraction of the vehicles are not SUVs?

Date _____

Greater and Less Than Number Kissing

Start at a green number and draw a line to any red number that is less than the green number.

Draw a line that connects one number to one other number to kiss. Draw your lines over the trace lines. No lines may cross. Once you draw a line to a number, that number cannot be used again.

One complete line has already been drawn for you.
