1. One country won eight gold medals. The same country also won three silver medals.
2. Russia won two bronze medals in downhill skiing as well as three bronze medals in ski jumping.
3. France won more gold medals than bronze medals. France also won the same number of gold medals as silver medals.
4. Russia won the fewest gold medals.
5. Germany won either three or six bronze medals.
6. France won a total of twenty medals.
7. One country won an even number of bronze medals and eight silver medals.
8. France won either seven or eight gold medals.
